

part B of title IV of the Act (see § 722.119);

(i) If in the case of total disability due to pneumoconiosis it is filed within 3 years from the date of last exposed employment in a coal mine; or

(ii) If in the case of death from a respiratory or pulmonary impairment for which benefits would be payable under section 411(c)(4) of the Act, incurred as a result of employment in a coal mine, it is filed within 15 years from the date of last exposed employment in a coal mine.

(b) Any State workmen's compensation law which provides longer periods for filing a claim subsequent to the events specified in this section shall be deemed to have met the requirements described herein. Any State workmen's compensation law which provides shorter time limitations on filing a claim, or which commences the period for filing a claim beginning with an event which is more restrictive than those specified in this section, shall be deemed not to have met the requirements of this section.

CRITERIA: MEDICAL STANDARDS FOR DETERMINING WHETHER MINER'S TOTAL DISABILITY OR DEATH WAS DUE TO PNEUMOCONIOSIS

§ 722.117 Medical criteria—generally.

Section 402(f) of the Act authorizes the Secretary of Health, Education, and Welfare to establish and promulgate standards and medical criteria for determining whether a miner is totally disabled due to pneumoconiosis, whether a miner's death was due to pneumoconiosis, and whether a miner was totally disabled by pneumoconiosis at the time of his death. Section 421(b)(2)(C) of the Act requires that in order for a State to be included on the Secretary's list, such State must promulgate standards for determining death or total disability due to pneumoconiosis which are substantially equivalent to those promulgated by the Secretary of Health, Education, and Welfare (see 20 CFR part 410, subpart D) and adopted pursuant to sections 415(a) and 422(c) of the Act by the Secretary of Labor in respect of claims filed subsequent to June 30, 1973 (see 20 CFR part 718). Therefore, no State

shall be included on the Secretary's list if it does not by statute or published formal rules and regulations provide standards which are substantially equivalent to or less restrictive than those standards published by the Secretary of Health, Education, and Welfare in subpart D of 20 CFR part 410 as amended on September 30, 1972 (37 FR 20641-20645).

§ 722.118 Medical evidence.

No State workmen's compensation law shall be included on the Secretary's list unless such law or regulations promulgated thereunder provide that no claim shall be denied solely on the basis of a chest roentgenogram and, that in determining the validity of claims all evidence shall be considered, including, where relevant, medical tests such as blood gas studies, X-ray examination, electrocardiogram, pulmonary function studies, or physical performance tests, and any medical history, evidence pertaining to future employability, evidence submitted by a miner's physician, or a miner's wife's affidavits, and in the case of a deceased miner, autopsy, biopsy, or other appropriate affidavits of persons with knowledge of the miner's physical condition, and any other supportive materials.

§ 722.119 Medical presumptions.

Section 411(c) of part B of title IV of the Act establishes a series of presumptions which shall be available to claimants for purposes of determining whether a miner's death or total disability was due to pneumoconiosis. No State workmen's compensation law shall be included on the Secretary's list if it does not provide or if regulations promulgated pursuant to such State law do not make available to claimants presumptions which are equivalent to or less restrictive than those presumptions contained in section 411(c) of the Act as set forth below:

(a) If a miner who is suffering or suffered from pneumoconiosis was employed for 10 years or more in one or more coal mines, there shall be a rebuttable presumption that his pneumoconiosis arose out of such employment;
